BOL.COM

Freelance Senior Java Developer (Oct 2010 -> Oct 2012; April 2013 -> March 2020; March 2021 -> July 2021; Oct 2021 -> Jan 2022)

Technologies I used at bol.com in importance order: Java, Spring Framework, Spring Boot, Git, Maven, Jira, Scrum, Cypress, JUnit, REST, Jenkins, SQL (Oracle & PostgreSQL), JavaScript, IntelliJ IDEA, Hadoop, Pig, JSF, Kotlin, Google Cloud.

As senior in the team, I sometimes prepared user stories, helped architecture and mentored other developers.

Reference: Jasper van Heijst (PO), jvanheijst@bol.com and Sijtje van Dorp (PO) svandorp@bol.com

JAPPLIS.COM (OWN COMPANY)

Development of multiple desktop and Android applications in Java 1998 - 2025.
